

UI/UX Design Rules Specification

Design standards, color codes, and component conventions based on the elements/roles on screen

1. Color Usage Rules

1.1 Main Colors (Purple Series)

Color Name	HEX Code	Role & Usage
Base Purple	#9F90C0	Primary buttons (new registration, search, etc.), active tab, current page number, input field focus state
Dark Purple	#8374A5	Primary button hover state, sort arrow icon color while sorting
Light Purple	#D6C8FF	Brand icon in the fixed header, emphasis/highlight areas

1.2 Action/Selection Accent Colors (Lime Green Series)

Color Name	HEX Code	Role & Usage
Lime Green (Accent)	#B7E300	Right-edge line (3px) on the selected sidebar menu item, left-edge inset line on selected table rows
Selected Menu Background	#F8FDE0	Background color of the currently displayed active menu item in the sidebar
Menu Hover Background	#FCFEF2	Background color when hovering over a sidebar item (text color: #7A9900)
Table Row Hover Background	#F6FBCB	Highlight background color when hovering over a data row in the search results table

1.3 Screen Base Colors & 1.4 Status Badges/Tags

Category / Element	HEX Code	Applied Elements / Appearance Preview
Header Background / Body Text Color	#2A2F40	Fixed header background, main body text
Overall Background (Body BG)	#EEF1F5	App-wide background color, table header (<th>), modal frame
Card/Form Background	#FFFFFF	Card areas, inside of input form frames, sidebar background
Border / Sub Text	#D1D8E0 / #636E72	Container outer border, rules/labels, breadcrumbs, supplementary notes
"Under Contract" Badge	Background #EEF9D6 Text #536913	Under Contract
"Suspended" Badge	Background #FFF8DC Text #B45309	Suspended
"Cancelled" Badge	Background #E2E8F0 Text #647488	Cancelled
Responsible Department Tag	Background #E0F8FF Text #00769A	Cram School/School, Individual

2. Text, Spacing & Corner Radius Size Rules

2.1 Font Size (Type Scale)

Type	Size	Weight	Applied To
Base Font Size	12px (base)	400 (Normal)	Baseline size for the whole screen (line height 1.4)
Page Title (H1)	1.15rem (~13.8px)	700 (Bold)	Main title in the top-left of the screen
Header Logo / Modal Title	0.9rem - 0.95rem	700 (Bold)	App header text, modal dialog headings
Button / Form Text	0.78rem (~9.36px)	600 (Semi-Bold)	Action button labels, input form values/text, accordion headings
Table Data / Select	0.75rem (~9.0px)	400 / 600	Search results table cell text, page-count dropdown
Label / Badge	0.68rem - 0.72rem	500 - 700	Form field labels, filter badges, badge text

2.2 Corner Radius (Border Radius) Rules

- **4px**: Input forms (<input>, <select>), header info chips, page navigation buttons
- **6px**: Standard action buttons (`.btn`), search accordion cards, table outer frame cards
- **8px**: Modal dialog container
- **16px (Pill)**: Tab switch buttons (`.tab-btn`)

3. Component-Specific Detailed Rules

3.1 Screen Header & Sidebar

- **[Top Fixed Header]** Fixed height of 48px (background color #2A2F40, with a drop shadow below). Sidebar toggle button and app logo on the left; user permission and target scope info chips on the right.
- **[Left Sidebar]** Fixed width of 200px. When collapsed, it slides out to the left, and the main screen's left margin smoothly expands from 200px to 0px. The currently selected menu item gets a lime green (#B7E300) bold line (3px) on its right edge.

3.2 Unified Button Specifications (Button System)

- **[Basic Button Rules]** Unified width: all action buttons are unified to a width of 105px (aligned to fit text such as "New Registration"). Height/padding: `padding: 5px 0;` , 6px corner radius, 0.78rem Bold text.

Button Type	Class Name	Visual Style	Main Use
Filled Button	<code>.btn-primary</code>	Background: #9F90C0 / Text: #FFFFFF (Hover: background #8374A5 + drop shadow)	Main decisive actions such as new registration, executing search, applying a modal
Outline Button	<code>.btn-outline</code>	Background: #FFFFFF / Border: #D1D8E0 / Text: #2A2F40 (Hover: border/text color #9F90C0)	Supporting actions such as bulk import, CSV export, display column settings, clear, cancel
Tab Switch Button	<code>.tab-btn</code>	16px Pill radius (Active: background #9F90C0 / Text: #FFFFFF)	Switching entities at the top of the screen

3.3 Filter Search Condition Accordion

Entry-exclusive spec

Search Accordion & Multi-select Dropdown

- **Scope:** The "search accordion feature" and "multi-select dropdown (contract status, responsible department, etc.)" are specifications exclusive to Entry (registration/input & search area) screens and components.
- **Search Accordion:** Card-style, collapsible/expandable. Forms are arranged in a 3-column grid (only wide items span all 3 columns). Shows a purple glow ring on focus.
- **Multi-select Dropdown:** Condition setting via `<select multiple>` . Maintains the same compact display size as a single-select dropdown.

3.4 Search Results Table

- **Basic Table Display:** Headers (`<th>`) have a gray-toned background (#EEF1F5). Data cells (`<td>`) have 6px 10px padding with no text wrapping.
- **Row Hover Effect:** The hovered row's background changes to a lime-green tone (#F6FBCB), and an accent line appears on the left edge.
- **Multi-column Sort:** A normal click sorts ascending/descending (▲ ▼). Shift + click enables multi-column sort (showing priority numbers ▲1, ▼2, etc.).

3.5 Pagination & Display Columns Modal

Entry-exclusive spec

Synced Top/Bottom Pagination

- **Scope:** The "synced top/bottom pagination feature" is a specification exclusive to Entry (registration/input & search area) screens and components. Other screens place pagination only at the bottom.
- **Synced Top/Bottom Pagination:** The same controls are placed at both the top and bottom of the table. Display count and page navigation are synced in real time between top and bottom.

- **Display Columns Modal:** Show/hide toggled via checkboxes. Required fields cannot be deselected — they are shown as disabled and marked "(Fixed)".
